

Kanguru FlashBlu30™

USB3.0 Flash Drive with Physical Write Protect Switch

**SuperSpeed
USB3.0**

SuperSpeed USB3.0 Data Storage with Physical Write Protect Switch

The **Kanguru FlashBlu30™** USB3.0 flash drive with physical write protect switch combines cost-effective data storage and convenience with lightning-fast data mobility. As one of Kanguru's hottest selling products, the Kanguru FlashBlu30 is among the fastest drives on the market with data transfer read speeds of up to 120MB per second and write speeds of up to 50MB per second.* The convenient physical write protect switch enables the user to quickly switch back and forth between read only and read/write modes to protect data from being accidentally overwritten or erased.

FYI

You can snap the cap onto the back of your drive while in use! This is a convenient, easy way to store the cap while it is plugged in so it does not get lost.

** In line with Microsoft's End-of-Support announcement for Windows 7 and prior, Kanguru Solutions is ending support for its line of products running on these platforms. While our products have been quality tested internally on these OS, we cannot guarantee normal product operation on an unsupported OS. Please consult your system administrator for an OS upgrade.
